

International Forensic Studies Program

Rome, Italy

Daily Program Schedule

Introduction and Opening Remarks by Prof. Gaetano Pascale

Arrival of students to Rome. Meeting for orientation.

Introduction to the program at University of Washington Rome Center.

“Organized Crime made in Italy - Impact on American Society”

Today, it seems that this high life type of living presented by American cinema has become the normal conception of the mafia lifestyle. The majority of Americans have been introduced to the idea of the mafia through cinema and TV series, such as the Sopranos. The American mafia stays comparatively quiet and affects few citizens. The ever present social and political corruption the Italian mafia has imposed over the years, especially in Sicily, has given the Italian and Sicilian people a realistic understanding and first-hand experience of the mafia. The conception these people have of the mafia is one of reproach and distrust rather than glory and acclaim.

“Intuitive Policing: the perception of danger in police work”

Examination of real cases

Management of post-traumatic experiences in police work

From cops' point of view, life depends on being able to recognize signals of danger and having the ability to react to them in an appropriate way....

How it's possible that the Police Officers have perceived the threat acting even before thinking?

Do you think it's possible only: by observing? by knowing non verbal communication that means to pay attention to behaviours, body movements and so on? From personal experience gained day to day? It cannot be only that...

The speed at which all of these elements were evaluated is at the origin of a process called INSTANTANEOUS RECOGNITION OF DANGER.

“Police Stress”.
